LYCEUM SERIES PRESENTS NATIONAL PLAYERS

The AC Lyceum Series will present the National Players in two performances to be held at the Maxwell Performing Arts Theatre. The group will perform Much Ado About Nothing January 26 and Animal Farm January 27. The plays will be performed at 2 & 8 p.m., and admission is general matinee, \$6, evening, \$7; and special (active alumni, non-AC students, senior citizens), matinee, \$3, evening, \$5; and free with an AC I.D.

SPOTLIGHT ON...PAULETTE CANALE

For most people, changing jobs is a major move. For Paulette Canale, it simply meant climbing an extra flight of stairs every day.

An accounting clerk in AC's Business Office for the past two years, Paulette recently was appointed Personnel Assistant, a position held by Charlye Moore for the past 12 years.

How the attractive and pert St. Louis, Missouri, native came to Augusta, however, is a somewhat spicy story. It began when Paulette's brother-in-law, who was stationed at Ft. Gordon, returned to his home in California to try to convince his relatives to move to Augusta and together open up an authentic Italian restaurant. The convincing worked, the Canale's moved to Augusta, and Emilio's Restaurant was born.

Paulette and her husband Ralph, however, eventually pulled out, and she went to work for Montgomery Ward's personnel office and he, an aircraft mechanic, affiliated with Beech Aerospace Industries, Inc., with offices at Bush Field.

An opening in the Business Office attracted her to AC and the rest, as they say, is history.

The Canales are Columbia County residents and have two daughters, Christine, 19, and Cynthia, 17. Christine will be getting married in March and Cynthia is a junior at Evans High School.

With her parents, brother, and sister living in St. Louis, Paulette is delighted to be so much closer to her loved ones. "When we were in California, it was just so hard to get together," she said, adding St. Louis is now "only a 14-hour trip."

Marrying into an Italian family was easy for the former Paulette Debello. Her in-laws, who are now operating Emilio's on Washington Rd., include her parents-in-law Emilio and Jennie, and Alex Canale, her brother-in-law.

AC CONDUCTING ATTITUDES AND OPINIONS POLL

AC researchers are seeking information on the attitudes and opinions of Augusta residents on local, state, and national issues through a poll which will be conducted January-March. Co-sponsored by the AC Re-search Center and the Department of Sociology with support from the Augusta Chronicle-Herald, the poll will be used by elected officials and leaders from the private and public sectors to gain a better understanding of the community and as a data base for planning and decision making. Trained student interviewers will conduct the poll under faculty super-vision. The poll's director is Dr. Robert Johnston of the Sociology Dept., and participants include Dr. Ralph Walker, director of the AC Research Center, and Ernestine Thompson, associate project director.

PORNOGRAPHY: YES OR NO?

The AC Political Science Club will host a forum to debate the question of whether or not pornography should be allowed on Tuesday, January 17, from 12-1 p.m. in the Butler Hall Lecture Room. The panel will consist of representatives from the Coalition Against Pornography, which will include Phil Kent, editor of the Augusta Chronicle-Herald, David Hudson, a local attorney, and Linda Brown, spokesperson for the Coalition. It will also include a panel advocating protection under the First Amendment, which will include Richard Brady, president of Centaur Corporation, and Gasten Ferry, that company's attorney.

S.A.C.S. UPDATE

The text of a report submitted to the Southern Association relative to "Institutional Effectiveness" (Criterion III) has been placed on general reserve in Reese Library. The report deals with the college's current position on assessment and long range planning. The report is preliminary to a visit on January 25 by Dr. David Carter who is our S.A.C.S. liaison. There will be an open faculty meeting on that day at 3 p.m. and the faculty and other interested parties are urged to set that time aside. Dr. Carter's visit will officially kick off the AC Self-Study. In the event you missed the final 1988 Spotlight, the document referred to above joins an earlier communication to S.A.C.S., the first one dealing with institutional purpose. Both are filed under "AC Self-Study."

SPOTLIGHT ON JERRY HAGERTY

If ever there was a job that combined the glamour of movie making with the tedium of technical tasks, Jerry Hagerty has it. The work he does in his role as Coordinator of Media Services and the Learning Resource Center appears in such places as the front cover of AC's new Telephone Directory, and on Jones Intercable channel 12 in the form of The Clint Bryant Show.

A native of Memphis, Tennessee, Hagerty has been perfecting his art since the 1960's when he worked at television and radio station WSAV in Savannah. During the Vietnam era, he expanded his expertise in electronics in the U.S. Navy. "I joined the Navy to avoid being drafted by the Marines," Hagerty said, "and I was in Navy boot camp the day Nixon abolished the draft." Hagerty received an honorable discharge in 1971.

Even Hagerty's spare time is devoted to his craft. He often spends days off taking photos on behalf of the Hephzibah Nutrition Site (a social service organization that provides assistance to senior citizens and shut-ins), where his wife, Linda, is manager. Other leisure time activities include spending time with his boys, Russell, 6½, and Michael, 2½.

SPOTLIGHT ON... JOE BOBROWSKAS

Joe Bobrowskas, a new recruiter/counselor in the Admissions Office, is about as close in age and interests to high school seniors and college freshmen as a young man with a bachelor's degree can be. Joe graduated with a degree in public relations from Troy State University, Troy, Alabama, in March 1988. "Because of my age, I'm able to relate easily to the young people I work with; in fact, I have a lot of friends who are students here." Joe interned in the admissions office at Troy State while he was a student there, and he was delighted when he was hired to work in the AC Admissions Office this past October. He had worked for a brief period after graduation in a public relations firm in Atlanta. "But," he said, "the atmosphere here is much more pleasant. I like the people I work with, and I hope to be here a long time. This job provides a lot of diversity; I get to meet students, faculty, and staff members, and I often have to travel to places like Atlanta, so my job doesn't ever get boring."

Traveling is something Joe got one big taste of in college. In the summer of 1987, he went to Bangkok, Thailand, for 11 weeks. He was part of a Campus Outreach group that taught English to students at a large national university. (Campus Outreach is a non-denominational outreach ministry based at Briarwood Presbyterian Church in Birmingham, Alabama.) "It was a great experience! A highlight of the summer was the week we spent in a very rural province in northern Thailand," he said. The food was not very appetizing for an American and Joe lost 15 lbs. "I never did gain it all back," he added. When asked about future ambitions, he said he'd like to begin work next winter quarter on a master of science degree with a major in psychology. He'd like to teach at the college level. "Within the next 10 years or so, I'll possibly be teaching over-seas somewhere," he said.

NEW ADMISSIONS OFFICE TELEPHONE NUMBER

Effective immediately, faculty and staff should call the Admissions Office at these new numbers: 737-1632 and -1633. PLEASE DO NOT CALL THE OLD NUMBERS (1405 and 1406). The old lines will be connected to answering machines and will provide routine messages designed to respond to inquiries from the general public. Also, a new feature, "music on hold," will soon provide music and other information on all lines when the caller is placed on hold. The Admissions Office appreciates everyone's patience with the changes and encourages feedback.

The Augusta College "family" extends sincerest sympathy to Al Montgomery of the Physical Plant, whose mother, Annie Montgomery, of Augusta, died on February 3, 1989.

IS LIFE OUTSIDE THE SOLAR SYSTEM POSSIBLE?

A Harlow Shapely Visiting Lecturer, Dr. Heinrich K. Eichhorn, sponsored by the American Astronomical Society, will speak on Thursday, Feb. 16, at 8 p.m. on "The Possibility of Life Outside the Solar System." The professor of astronomy and civil engineering at the University of Florida will give the free lecture in room A-4 of Skinner Hall. At 9 a.m. that day, he will meet with upper division chemistry and physics students, and at 11 a.m. he will talk on "Science and Religion" to all physical science students in Markert Hall.

He will also discuss affirmative action and political directions. Admission for the February 28 lecture is \$3, general; \$2, non-AC students, active alumni, and those 65 or older; and free with an AC I.D. The lecture will begin at 8 p.m. in the Grover C. Louis, now a resident of Bakersfield, California, encouraged Mark to transfer from the West Coast to AC to study under Fominaya. Mark agreed and is now majoring in composition here.

Frank Nagy, Counseling Psychologist for the Center, has been at AC for five months and has introduced group counseling to the many services offered by the Center for students. He said, "This is the first time interpersonal counseling has been offered at AC. It includes sharing and role playing, and helps people deal with their feelings. Often, there's a lot of scariness that goes along with joining a group. We try to make it easier for people to get over those fears." According to Nagy, two groups were started during winter quarter and have elected to continue to meet during spring quarter. A new group is also forming for spring quarter. Dr. Nagy is a native of Torrington, Conn. He earned a Ph.D. in counseling from the University of Florida at Gainesville, and his hobbies include tennis, basketball and swimming. He said, "AC has been a very good experience for me. I like the college atmosphere, and we have some excellent professors. AC offers good academic programs for our students."

SPOTLIGHT ON...LLOYD HURST

AC has seen a lot of change in her history, but for the last twelve years, one thing has remained constant--neither the confusion of the first day of a new quarter, nor the heat and humidity of the hottest Georgia summer can keep Lloyd Hurst from his appointed rounds as Mail Clerk for the College.

Hurst joined AC in 1972, having worked five years in security before accepting his current position. In his pre-AC days, Hurst worked for the U.S. Postal Service after serving in the U.S. Army "20 years, 2 months, and 18 days," where he was posted in Germany, Korea, Vietnam, Washington, D.C., and Ft. Gordon.

Hurst and his wife Carol have four children: Hugh, Lloyd Jr. (an AC grad), Jennifer (a senior at AC), and Allison. In his spare time, Hurst enjoys playing golf and baseball, as well as watching sports on television (especially the Boston Celtics and the New York Yankees!).

Three AC students have been selected to present research papers at the Third National Conference on Undergraduate Research, to be held at Trinity College in San Antonio, Texas, April 27-29. SPOTLIGHT ON...HAROLD MOON

When Dr. Harold Moon was growing up on his family's farm in Columbus, Georgia, he never dreamed he'd go from farm boy to college professor and president of Psi Chi, a National Honor Society in Psychology. He said, "When I was in high school, college didn't look like a very great possibility for me. My family ran a dairy farm and we didn't have much money. In my senior year, I talked with an admissions recruiter from Georgia Southwestern College and decided I had saved enough war bonds to pay for a couple years of College--back then, expenses were about \$50 per quarter."

It was the start of an academic career that finally led him to AC in 1972, but he has held many different jobs through the years. He worked for a wholesale magazine company and as paymaster for a foundry and machine company before entering the army in 1952. There, he served as cadre for a basic training unit, as instructor for the chemical, biological, radiological warfare school, and finally made sergeant for finishing the advanced NCO school in the top ten in his class. He also held positions in hospitals and mental health centers, and did his clinical internship in the Department of Psychiatry at the University of Tennessee Medical School.

Moon and his wife of 31 years, Kay, met at Auburn. He said, "She's from New Orleans, and her grandmother wanted her to go to Auburn because she heard they locked the freshmen girls up in the dorms at 7:30 p.m. during the week." They have two children, ages 25 and 22.

SPOTLIGHT ON...CAROLYN KERSHNER

Carolyn Kershner, a native of Glendale, Ohio, first came to Augusta in 1963, when her husband was transferred by Proctor & Gamble. The Kershners lived in Augusta until 1969, when they moved to Manchester, Ga. Carolyn became a widow—with five children—in 1977. She moved her family back to Augusta in 1980 and began working at Augusta College as an office manager in the School of Business Administration. She became Dean Gray Dinwiddie's secretary in 1982 and is now secretary to Dean Ron Tallman, School of Arts & Sciences. In rearing five children, Carolyn served many years on scout troops, for both boys and girls, and on various church committees. She even played the church organ when she lived in Manchester. One of her favorite former jobs was working with children who needed speech therapy. She has remained busy at AC; she was the charter president of AC's Higher Education Office Personnel Assn., she'll serve as secretary for the group next year, and she's currently the historian and serves on the By-Laws Committee. She's also a member of Asbury United Methodist Church. She managed to complete two years of classes at AC while some of her children were still teenagers and she was working full-time. The most rewarding part of her job, she says, is dealing with student problems concerning reinstatements, etc. She derives a great sense of satisfaction from helping to solve some of the problems.

EMPLOYEE RECOGNITION CEREMONY

A few comments on the new Employee Recognition Program to explain the criteria for giving awards: The awards ceremony, held for the first time at the annual fish fry, will be held every year and will honor those with continuous years of full-time service beginning with 5 years and continuing through 30 or more in increments of 5. While the College would have liked to have recognized everyone's term of service, it was necessary to establish who was currently celebrating 5, 10, 15, etc., years of service. For example, an employee who has worked here continuously for nine years will be honored next year with a ten-year award. Also, we wish to extend many thanks to President Wallace, the President's Council, and the Deans for their generous financial support. Without it, the recognition ceremony could not have been held.

The AC Office of Career Planning and Placement will host a Business Protocol Seminar Friday, October 6, from 9 a.m.-1:30 p.m. Atlanta's Carson Brown, owner of The Proper Thing, will discuss such topics as introductions and greetings, telephone etiquette, professional dress, and business protocol. FOR THE WEEKS OF NOVEMBER 20-DECEMBER 3, 1989

AC Student Honored--AC Sociology major Karen Finkelman had a difficult time convincing the senior citizens she interviewed that she wasn't selling anything as she collected data for her award winning research paper. The paper, entitled "Tuition Waiver Programs: A Comparative Study of Senior Citizen Students and Senior Citizens in the Augusta Community," won the award for best undergraduate research paper at the 34th Annual Meeting of the Georgia Gerontological Association, held recently in Albany, Georgia.

Mrs. Finkelman said, "One of the most difficult things about doing the research was convincing the people I interviewed that I wasn't selling anything. Many of them thought I was trying to get them to go back to school, and it took some explaining to make them understand all I wanted was to ask them some questions."

The paper addresses the subject of free college tuition for senior citizens and the factors that cause some people to take advantage of the program while others do not. Mrs. Finkelman has also been invited to present the paper at the upcoming Statewide Student Gerontology Conference for Graduate and Undergraduate Research, to be held at the University of Georgia in March.
